SUMMARY

Full-Stack Developer and Mobile App Developer with 7+ years of experience building production-ready web and mobile applications. Proven track record of shipping cross-platform apps to both major app stores, serving real users across healthcare, retail, finance, and productivity industries. Proficient in JavaScript, TypeScript, PHP, Laravel, React, React Native, Flutter, and MySQL. Committed to clean, maintainable code and delivering impactful digital experiences end-to-end.

EXPERIENCE

Database Administrator & Mobile Developer · Web Coast Apps *Oct 2018 – Present*

- Architected and shipped 10+ production mobile apps to the Google Play Store and Apple App Store — including a POS system (SST), customer ordering app (SSC), tip tracker (Tipsee), expense tracker (XPTracker), caregiver health monitor, medicine scheduler, task & reward tracker, and performance evaluation manager.
- Developed and maintained cross-platform mobile applications using React Native, implementing UI/UX designs for seamless Android and iOS experiences.
- Built and managed RESTful APIs using Laravel (PHP) and Node.js to support mobile app back-ends, ensuring reliability and scalability.
- Managed server infrastructure, database administration (MySQL), and security to maintain data integrity and uptime.
- Integrated third-party services including push notifications (OneSignal), Firebase, and cloud backup solutions.
- Optimized app performance through profiling, debugging, and continuous code refactoring.

Languages: JavaScript, PHP, HTML, CSS, SQL, Java, Dart
Frameworks: React Native, Node.js, TailwindCSS, OneSignal, WordPress
Tools: VS Code, Git/GitHub, Android Studio, Firebase, PowerShell, CPanel

Software Developer · The Medical City South Luzon *Mar 2024 – Mar 2025*

- Developed the TMCSL SOL mobile app using Flutter, integrated with the hospital's HIS/EMR system for appointment scheduling, lab results, and billing transactions.
- Designed and deployed a real-time Queuing Management System (WebSocket) to reduce patient wait times and improve operational efficiency.
- Built a Canteen Management System and Meal Monitoring System featuring barcode scanning and Excel report export.
- Implemented real-time push notifications via OneSignal for appointment reminders and alerts.
- Wrote clean, scalable code following best practices; conducted debugging and performance optimization across all systems.
- Collaborated closely with designers, project managers, and stakeholders to deliver high-quality solutions on schedule.

Languages: JavaScript, PHP, HTML, CSS, SQL, Dart
Frameworks: Flutter, Laravel, Node.js, WebSocket, Bootstrap, jQuery, OneSignal
Tools: VS Code, Git/GitHub, Postman, Android Studio, PowerShell

Junior Full Stack Programmer · IT and Marketing Group Enterprises *Apr 2018 – Oct 2018*

- Designed and developed responsive web applications using HTML, CSS, Bootstrap, and JavaScript, ensuring cross-browser compatibility and mobile responsiveness.
- Implemented and managed RESTful APIs for seamless front-end to back-end data communication using PHP and MySQL.
- Integrated data visualization using ChartJS to present business metrics clearly.
- Collaborated with designers and developers in an agile environment to deliver projects on schedule.

Languages: JavaScript, PHP, HTML, CSS, SQL
Frameworks: ChartJS, Bootstrap
Tools: Sublime Text, XAMPP

Web Developer · Portal Integrator *Jul 2017 – Jan 2018*

- Developed and maintained SCRUM-based web applications with a focus on responsive design and cross-browser compatibility.
- Managed and optimized Firestore Database for efficient real-time data retrieval and storage.
- Integrated back-end services using PHP, JavaScript, and Firebase for dynamic content delivery.
- Maintained clean, well-documented, and reusable code in a Kanban/Scrum environment.

Languages: JavaScript, PHP, HTML, CSS
Tools: Sublime Text, FileZilla, Firebase, Scrum, Kanban

TECHNICAL SKILLS

Mobile React Native · Flutter (Dart) · Java / Android SDK
Front-End React · Next.js · TypeScript · JavaScript · TailwindCSS · Bootstrap · Redux
Back-End Node.js · PHP · Laravel · MySQL · Firebase · REST APIs · WebSocket
Tools Git/GitHub · VS Code · Postman · Android Studio · Jira · Firebase · XAMPP · FileZilla

EDUCATION

Bachelor of Science in Information Technology *2013 – 2017*
System Technology Institute (STI) College Santa Rosa

CERTIFICATIONS

- Flutter Essential Training: Build for Multiple Platforms
- Git Essential Training
- JavaScript Essential Training
- Laravel Essential Training
- Learning React Native
- Learning SQL Programming
- Android Development Essential Training
- Agile Software Development
- Java 8 Essential Training
